Bonjour – Come and learn French with your friends at Walter Infant School!

BONJOUR! My name is Madame Thonon and I run the French club at Walter Infant School. We have a fantastic programme to help children learning French through fun and educational activities that include stories, songs and games, role-plays, adapted to the children's ages and abilities. **The children are having fun in our Y1 Group and our Y2 group so NOW IS THE TIME FOR YOU TO JOIN US!**

The benefits of learning a language in early years are numerous. To name but a few, children who learn a second language early will:

- **Do better at school, in all areas of the curriculum**; studies have proved that children learning another language do especially better in maths, reading and writing.
- **Show superior problem-solving skills**
- Have an **increased self-esteem and confidence**, spurring into a deeper and broader passion for learning in general
- **It gives your brain a good workout!** A study has shown that children exposed to another language from an early age have got the highest density of "grey matter" in the brain. Grey matter is responsible for processing information, including memory, speech and sensory perception.
- **Develop easily a native-like accent** is much easier for younger children than adults and even adolescents
- Have **better chances at college applications and bigger career choices**, in a world where competition makes it harder to get into the best schools or where companies operate more and more on a global scale, having another language on your CV will put you in the pole position
- Have a **greater understanding of the world**, through a second language, you will discover another way of thinking, another mindset
- **Understand your mother language better**, have a wider and richer vocabulary. By learning another language, you can understand your own language better.

We will be running classes at school on the following days:
